I need to change as to python\_library/asda. How to do that? A: You can try using string.replace(). The first parameter is the new value, and the second is the value to be replaced. Something like: var = var.replace("as","asda") A: In Python 2.x: re.sub(r"as", r"asda", var) In Python 3.x (3.1 is old Python 2.6): re.sub(r"as", r"asda", var) Or to catch all words/words with some specific character: re.sub(r"[as]", r"asda", var) A: If you use it on a string in the python shell you can replace in one line: x = "asdf" x.replace("as", "asdf") Show HN: Pecco's Logo Design Challenge - cmos ===== cmos Back in the day I had this idea of working on a logo design contest to get some logo design inspiration. Didnt end up trying to put it into action but its still nice to get some nice designs to see in my email and at the very least makes me a little bit better at designing. There 9df0af710a
