The integrated kinetic intelligence combines EA SPORTS DNA with advanced motion capture technology to deliver authentic player control and behavior, creating the best sports video game experience possible. With "HyperMotion Technology" in FIFA 22, players can feel like the best footballers on the pitch, performing the most dynamic and impactful dribbles, passes, tackles and finishing to win games. Key Features: "HyperMotion Technology" EA SPORTS DNA First-person view Unrestricted offline mode (4K and VR support) Intelligent player intelligence AI dodging Intelligent goalkeeper AI Player skills progression and development Eye and hand control Open world system True Touch Control Mane run and chase Teampay New and improved Referee The "HyperMotion Technology" A signature element of FIFA since FIFA 13, "HyperMotion Technology" is a brand new feature for FIFA 22. This technology was originally developed to use in movies and other applications. It is similar to motion capture technology in that it enables players to move and behave in life-like ways, however using a completely different set of sensors, the "HyperMotion" technology is more accurate. As such, it can read and replicate the "real world" movement that naturally occurs in football. EA SPORTS DNA It's not just about the player movements and reactions that makes the player feel special and interactive in the game - it's about how they play, how they score, and how they win football matches. In FIFA 22, the DNA of the EA SPORTS franchise has been pushed to new heights with the development of "EA SPORTS DNA", a new philosophy that harnesses the intimate knowledge of the sports industry. By knowing the history and culture of each team and integrating that knowledge into the game, "EA SPORTS DNA" produces true-to-life game play that makes players feel as if they are the best at their chosen sport. The DNA of FIFA has always been all about playing like the real thing. With "EA SPORTS DNA," players will now play like the best footballers in the world. First-person view Becoming a first-person view player enables players to control the ball and move the camera to perform dynamic and intuitive passes and tackles. "First-person view" has been enhanced in FIFA 22 for a more

## **Fifa 22 Features Key:**

- Career Mode - Live out your dream of managing the new club in FIFA 22. Set up your team in FIFA Ultimate Team, get ready for your new adventure
- Playable characters - Play with some of the best footballers from around the world
- Enhanced online connectivity - Play with the very best of the world's footballers while playing on both PC and consoles
- Play the World Cup live with a first-ever FIFA World Cup Championship
- New roster announcements, tournament types, match types, & more
- Completely new gameplay engine - FIFA 22 will feature a new natural movement model that blends more realistic physics in all phases of player movement. The game also features a variety of visual effects, such as: goal animations; the ability for goals to spin on their own axis; and improved ball physics that deliver an unprecedented experience.
- Enhanced ball control and dribbling - The ball feels more realistic, as players can now flick the ball with their back or boot with enhanced ball control. And there are more cues - such as using the laces - that can help you increase your dribbling skills. Players will even be able to use the width of a football pitch and start a run wide to their advantage, as if they had dribbled from deep out wide to the final third of the pitch. The ball also continues at full speed after kick-ins, even if players launch long shots.
- Score Attack - Increase a lead. Defeat a rival in a one-on-one battle, and take a one-on-one tally up.
- Defending A - Hide the ball for cool looking plays, such as the one-two flick through created by Real Madrid forward Gareth Bale. And defend your goal against opposition players, such as Barcelona's Javier Mascherano or Real Madrid defender Marcelo.
- Real Life Ball Physics - Take shots on goal while dealing with overheads, and shoot long volleys when the situation calls for it. Put your opponents in a tough position, and see them react.

- 
- Master offensive and defensive playstyles – Whether you like to dribble dangerously from the top of a narrow defence, or pass the ball around cleverly to unlock a pass into space, you now have the ability to use a

**FIFA is a football simulation game, originally released in July 1992 as a coin-op game based on the coin-op version of the same name. It was developed by Maxis, published by Electronic Arts and later, FIFA Interactive and developed by EA Canada. FIFA is available on the PlayStation, PlayStation 2, Xbox and the PC. The PlayStation and PlayStation 2 versions were originally published by Sony Computer Entertainment. In 2003, EA Sports was established to produce sports titles and is responsible for the video game adaptations of EA SPORTS FIFA World Cup. The rights to the FIFA series are held by SEGA. Features Asia Argento, the actress who accused disgraced film director Harvey Weinstein of sexually assaulting her in 2013, said she has been awarded around \$4.2 million by a court in California in a case that involved her accuser. Ms. Argento filed a lawsuit last year alleging that the former child star Jimmy Bennett had sexually abused her. Mr. Bennett, who had been underage at the time of the alleged abuse, reached a confidential settlement with Ms. Argento in September. He then filed a lawsuit for breach of that settlement, asking for around \$3 million in damages, claiming that she had reneged on the deal**

**because she was still in a relationship with Mr. Weinstein. Ms. Argento, who was 36 at the time of the alleged assault, is not accused of any wrongdoing. Mr. Bennett's lawyer, Blair Berk, told reporters outside the Riverside Superior Court in California that his client is happy with the award. He told The New York Times that he "felt there was a significant disparity between the amount that Mr. Bennett was seeking and the judge's ruling in favor of Ms. Argento." "They're looking at this outcome as a victory, and we're looking at this as justice being served," Mr. Berk told The Times, adding that he didn't agree with the amount. "He's not thrilled, and we're going to be looking at whatever we can do to get it reduced." Mr. Berk told The Times that Ms. Argento "was kind enough to say that she was not a victim." "I believe the evidence will show that she was not a victim. And that she set in motion events that led to Mr. Bennett'**
