Free YT Downloader License Code & Keygen [Mac/Win]

Simple and clean interface Losing time and energy with such an application is not a desirable thing. Free YT Downloader understands this aspect and brings forth a lightweight UI with a comprehensible layout. To start snagging items, you must copy their URLs and paste them into the designated field, one by one. Due to how the formatting dynamic is implemented, downloading in bulks is not very facile. If the batch download feature is a must for your needs, you should look for another app. However, as a small compensation for lacking this function, the app lets you download playlists. Just change the setting from Video to Playlist and provide the right URL before downloading playlist items. Download and convert your files on the spot Once a URL is scanned and accepted, a new set of options will pop up. Before downloading an item, you can decide the output file's format. MP4, MKV, WebM, FLV, AVI, and OGG are the video-related file types. In case you need the audio source only, collapse that specific menu and choose a format like MP3, AAC, WAV, OPUS, FLAC, and M4A. Another handy feature would be the speed limit setup. If your bandwidth or internet speed is needed for other activities, you can restrict the app's usage of the said speed.
